---

**JXKE is an emerging Alternative Emo Pop Punk artist from the Philadelphia & South Jersey scene — the region that's produced some of the most defining pop-punk of the last decade.**

JXKE found joy in live music young. *“It poured rain, thunderstorms, all on the lawn of Susquehanna Bank Center and no one cared at all.”* That Linkin Park, Incubus, and Mutemath show was the moment that solidified the path into music — the beginning of the journey that would eventually lead him to create on his own.

A veteran of the East Coast DIY circuit — known for his work in **Spiritbreaker**, **Regrown**, and **TIRED HEARTS** — JXKE built his solo catalog across 2023 – 2024: three independently released singles, **50k+ streams**. 2025 proved it live: a full-band run sharing the bill with **F1lthy** and **Xavier Wulf**, direct support slots for **Bike Routes** and **Public Works**, and a **sold-out headlining debut at Ortliebs** in Philadelphia.

His sound pulls from **Neck Deep** and **Turnstile** on one side and **Linkin Park** and **Blink-182** on the other — youthful, loud, and built to go off live.

**“I want to create a new nostalgia.” — JXKE**

**2026** — new singles to drop throughout the year, with a debut EP release to follow produced by **Drew Portalatin** (Origami Angel, Superheaven, State Champs).

From that cornerstone memory to his own journey, JXKE's love and passion for music are at the core of everything he does. *“It's a feeling you develop over time and your love just grows stronger — it never stops.”*
